Art Unit:

Claims 21-33 and 35-40 are presented for examination.

The amendments and remarks filed on August 29, 2002 have been received and entered.

Claims 21-33 and 35-40 are rejected under 35 U.S.C. 102 (b) as being anticipated by the European Patent Application for the reasons set forth on page 3 of the office action of July 19, 2002.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the synergism between the claimed insulin and antimetabolite. The allegation is not well taken. The prior art clearly teaches the combination of the claimed oligofructose in combination with an antimetabolite. The synergistic property of such combination is the inherent property of the composition. Furthermore, the claims of the instant application are drawn to the use of "an antimetabolite" in general which reads on the composition of the prior art. Additionally, the presented data in the specification show the synergistic activity for the oligofructose and one antimetabolite which is not commensurate in scope with the claimed language. Applicant is also reminded that in some claims each component is separate from the other and are used non-simultaneously. Therefore, for the above reasons the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit:

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
